

Saturday is the SUBTLE DECEPTION.

Why?

Because it's based on the SAME ROMAN CALENDAR as Sunday!

Saturday is not the Sabbath either?

Correct. The Sabbath is not on the Roman Calendar.

To find the Bible Sabbath
you need to use the Bible Calendar.

All the Feasts (SABBATH, PASSOVER,
TABERNACLES, etc) use the same calendar.

They do not use the calendars of:

- Constantine (Sunday Law, AD 321; Council of Nicaea, AD 325)
- Pope Gregory XIII (calendar, AD 1582)
- Rabbi Hillel II and the Sanhedrin (final meeting in AD 359 changed calendar in reaction to Constantine's persecutions.)

They use the Biblical Calendar, based upon the phases of the MOON. (see Gen 1:14, Psalms 81:3, 104:19). The month starts with New Moon Day. It looks like this:

The Biblical Month.								
(NM = New Moon, W = Work day, S = Sabbath)								
NM	W	W	W	W	W	W		S
1	2	3	4	5	6	7		8
	9	10	11	12	13	14		15
	16	17	18	19	20	21		22
	23	24	25	26	27	28		29
								(30)

On this calendar, the Sabbaths are always in the same place: The 8th, 15th, 22nd, and 29th of the month. Of course they are 7 days apart, but the count starts every month.

- Notice:
- The first day of the month is New Moon Day.
 - Then the seven day week begins, and the 8th day of the month being the Sabbath, is announced by this moon shape: 
 - The 15th day (the next Sabbath) is the full moon.
 - The 22nd (another Sabbath) is announced by this moon shape: 
 - The moon for the 29th (the last Sabbath) is just a sliver.
 - The next month begins with the next new moon, and the count of days begins again.

The Scriptures often mention the words "New Moon" and "Sabbath" together. Here are some examples:

- Isaiah 66.23** And it shall come to pass, that from one **new moon** to another, and from one **sabbath** to another, shall all flesh come to worship before me, saith the LORD.
- Ezekiel 46.3** Likewise the people of the land shall worship at the door of this gate before the LORD in the **sabbaths** and in the **new moons**.
- Ezekiel 46.1** Thus saith the Lord GOD; The gate ... shall be shut the six working days; but on the **sabbath** it shall be opened, and in the day of the **new moon** it shall be opened.

Many people think that there is a big difference between the *Seventh day Sabbath* and an *annual Sabbath*.

They feel that the Seventh day Sabbath uses a **continuous weekly cycle**, but the annual Sabbaths use the **lunar calendar**. Is this the case? The fact that **there is only one true calendar** is seen by studying the Fourth Commandment as given in Exodus and Deuteronomy. The version in Exodus is familiar:

Exodus 20.8,11
Remember the sabbath day, to keep it holy. ... For in six days the LORD made heaven and earth, the sea, and all that in them is and rested the seventh day:

The commandments as repeated in Deuteronomy 5 by Moses show something unusual with the Fourth Commandment.

Deuteronomy 5:12-15
*Keep the sabbath day to sanctify it, as the LORD thy God hath commanded thee. Six days thou shalt labour, and do all thy work: But the seventh day is the sabbath of the LORD thy God: in it thou shalt not do any work,... And remember that thou wast a servant in the land of Egypt, and that the LORD thy God **brought thee out** thence through a **mighty hand** and by a stretched out arm: **therefore the LORD thy God commanded thee to keep the sabbath day.***

So we see that the Fourth commandment in Deuteronomy does *not mention Creation* at all. Instead, it talks about the *exodus from Egypt*.

When did the Almighty bring them out from Egypt with a mighty hand?

Numbers 33:3
And they departed from Rameses in the first month, on the fifteenth day of the first month; on the morrow after the passover the children of Israel went out with an high hand in the sight of all the Egyptians.

Deuteronomy 16:1
Observe the month of Abib, and keep the passover unto the LORD thy God: for in the month of Abib the LORD thy God brought thee forth out of Egypt by night.

They left Egypt on the Sabbath of Unleavened Bread, at night. This was the same day as the seventh day Sabbath. This can be seen by examining the Fourth Commandment as recorded in two different renderings.

- The Fourth Commandment in **Exodus 20** clearly references the seventh day Sabbath based on Creation.
- The Fourth Commandment in **Deuteronomy 5** clearly references the seventh day Sabbath based on the deliverance from Egypt, which occurred on the evening of the Sabbath of Unleavened Bread.

All of the months in the Hebrew calendar start at the new moon. The feast days (Passover, Tabernacles, etc) are based on a lunar calendar. No one disputes this. The seventh day Sabbath is the first of the feast days listed in Leviticus 23. It is also based on the lunar calendar. This shocking truth is being revealed in these last days and has great significance for future events.

see **World-Calendar.info** for details

According to the Bible
neither **SATURDAY** nor **SUNDAY**
is the true Sabbath!

The commandments say:
"The seventh day is the Sabbath." (Exodus 20:8-11)

What's the seventh day?

It's not Sunday.
(Sunday is the **first** day of the week.)

Sunday is the **BIG FRAUD**.

And Saturday?

Saturday is the seventh day
of the Gregorian Calendar.

that's Pope Gregory xiii
